

Sprintomat

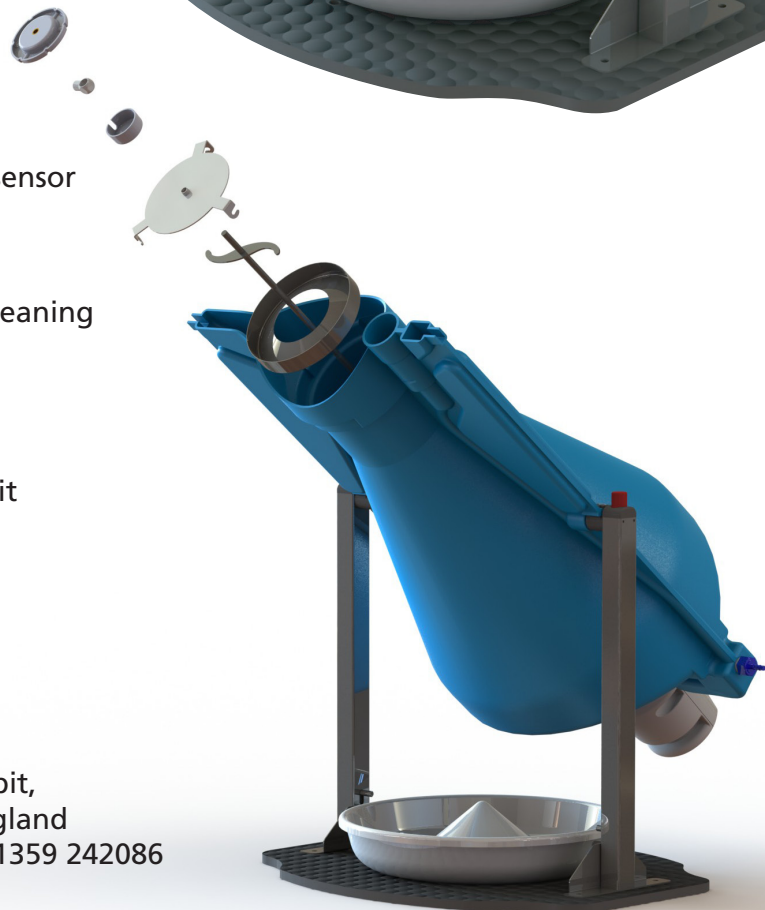

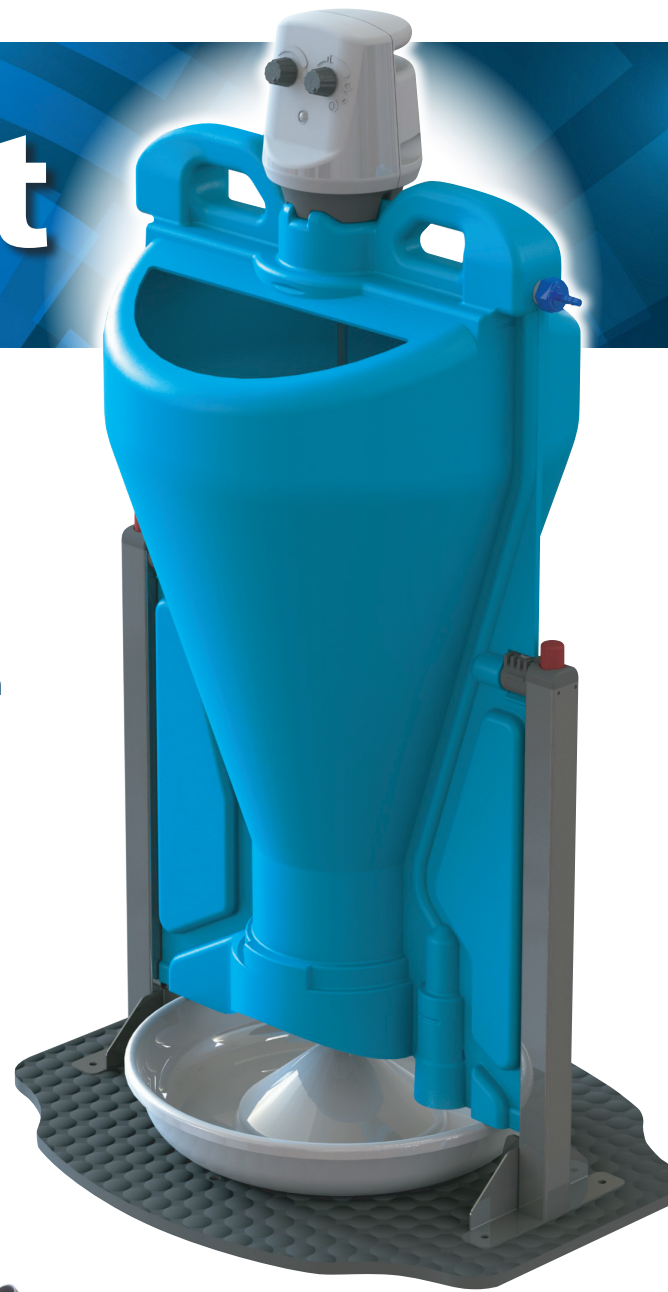

The Wet Feeder for Newly Weaned Pigs

Pigs achieve the best post weaning performance when fed little and often as they were with their mother. This advantage continues through the growing phase.

- Increased water intake during the critical phase immediately post weaning.
- High Feed Intake with best FCR
- Freshly mixed wet feed for minimum feed wastage
- Suitable for all feeds
- Easy to use and clean
- For up to 45 pigs from wean to 35 kg

Features:

- Timed feed cycle responsive to pigs feeding behaviour
- Motor driven, variable feed delivery
- Feed level in trough controlled by contactless sensor
- Variable Feeding Intervals
- Positional control panel for easy viewing
- Swivel Hopper with safety lock for thorough cleaning
- Removable control head for washing
- Removable trough for cleaning
- Removable feed delivery auger for cleaning
- Universal low voltage plug in power supply unit
